Determination of Patent Term Adjustment under 35 U.S.C. 154(b)
(Applications filed on or after May 29, 2000)

The Office has discontinued providing a Patent Term Adjustment (PTA) calculation with the Notice of Allowance.

Section 1(h)(2) of the AIA Technical Corrections Act amended 35 U.S.C. 154(b)(3)(B)(i) to eliminate the requirement that the Office provide a patent term adjustment determination with the notice of allowance. See Revisions to Patent Term Adjustment, 78 Fed. Reg. 19416, 19417 (Apr. 1, 2013). Therefore, the Office is no longer providing an initial patent term adjustment determination with the notice of allowance. The Office will continue to provide a patent term adjustment determination with the Issue Notification Letter that is mailed to applicant approximately three weeks prior to the issue date of the patent, and will include the patent term adjustment on the patent. Any request for reconsideration of the patent term adjustment determination (or reinstatement of patent term adjustment) should follow the process outlined in 37 CFR 1.705.

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

OMB Clearance and PRA Burden Statement for PTOL-85 Part B

The Paperwork Reduction Act (PRA) of 1995 requires Federal agencies to obtain Office of Management and Budget approval before requesting most types of information from the public. When OMB approves an agency request to collect information from the public, OMB (i) provides a valid OMB Control Number and expiration date for the agency to display on the instrument that will be used to collect the information and (ii) requires the agency to inform the public about the OMB Control Number's legal significance in accordance with 5 CFR 1320.5(b).

The information collected by PTOL-85 Part B is required by 37 CFR 1.311. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 12 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, Virginia 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450. Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

The present application is being examined under the pre-AIA first to invent provisions.

DETAILED ACTION

A request for continued examination under 37 C.F.R. 1.114, including the fee set forth in 37 C.F.R. 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 C.F.R. 1.114, and the fee set forth in 37 C.F.R. 1.17(e) has been timely paid, the finality of the previous Office Action has been withdrawn pursuant to 37 C.F.R. 1.114. Applicant's submission filed April 7, 2016 has been received and entered into the present application. Claims 10, 14-15, and 21-27 are pending and are herein examined on the merits.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael F. Gross III on June 15, 2016.

Claims are amended as follows:

In claim 10, delete [treating] in line 1-7 and replace with --stimulating the production of T-lymphocytes in a subject having--.

Art Unit: 1621

In claim 1, delete [to treat type 1 insulin-dependent diabetes mellitus, dermatitis, osteoarthritis, rheumatoid arthritis, or granulomatosis] in line 4-10 at page 4 and replace with --to stimulate the production of T-lymphocytes--.

In claim 23, delete [for treating] in line 1 and replace with --, wherein the subject has--.

In claim 24, delete [for treating] in line 1 and replace with --, wherein the subject has--.

In claim 25, delete [for treating] in line 1 and replace with --, wherein the subject has--.

In claim 26, delete [for treating] in line 1 and replace with --, wherein the subject has--.

In claim 26, delete [for treating] in line 1 and replace with --, wherein the subject has--.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The closest prior art of De La Cruz Cordero *et al.* (US 2010/0087400) teaches the same compound as claimed and its use for inhibiting carnitine acyltransferases and for treatment, amelioration or prevention of non-insulin dependent diabetes, hyperlipoproteinemia, hyperlipidemia, myocardial dysfunction renal anemia and Alzheimer's disease. However, the prior art does not teach the use of the compound for stimulating the production of T-lymphocytes in a subject having type 1 insulin-dependent diabetes mellitus, dermatitis, osteoarthritis, rheumatoid arthritis, or granulomatosis as claimed. There is no established correlation between inhibitory activity of carnitine acyltransferases and stimulatory effects of T-lymphocytes. In addition, there is no prior art teaching that similar compounds useful for treating non-insulin dependent diabetes, hyperlipoproteinemia, hyperlipidemia, myocardial dysfunction renal anemia and Alzheimer's disease are also useful for stimulating the production of T-lymphocytes or treating type 1 insulin-dependent diabetes mellitus, dermatitis, osteoarthritis, rheumatoid arthritis, or granulomatosis. Therefore, one skilled

Art Unit: 1621

in the art would not have been motivated to use the prior art compound for stimulating the production of T-lymphocytes in a subject having type 1 insulin-dependent diabetes mellitus, dermatitis, osteoarthritis, rheumatoid arthritis, or granulomatosis as claimed. Thus, the instant claims are novel and non-obvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 10, 14-15, and 21-27 are allowed.
